

## Quick-Turn Prototyping & New Product Introduction

Providing prototyping fast-track solutions in the heart of Silicon Valley. We focus on fueling emerging and innovative companies requiring quick-turn solutions from concept to volume production.

### Services & Capabilities

- Design Engineering and Technical Services Support
- Design for Manufacturability & Test Strategy
- Rapid Procurement & Quick-Turn Prototyping for Engineering Development

### Focus Market Segments

- Industrial & Commercial
- Communications & Instrumentation
- Consumer & High Tech Electronics
- Computing & Networking
- Medical & Life Science
- Power & Energy

# Quick-Turn Prototyping & NPI >

## Quick-Turn Prototyping Through Our Dedicated NPI Technical Center in San Jose, California

SMTC's newest quick-turn prototyping facility is located in the heart of Silicon Valley. It caters to both existing customers who want a quick proof-of-concept, as well as emerging companies who need prototypes of their new inventions. The NPI Tech Center streamlines the traditional manufacturing process by minimizing non value-add steps while still leveraging robust supply chain and manufacturing expertise. In addition to providing fast turn-around times, SMTC's NPI Tech Center provides services such as Bill of Materials validation, custom design, product testing, value analysis, value engineering and supply chain optimization. Additionally, tight integration with new product introduction and production teams means a smooth transition from prototype to manufacturing.

## Customer Centric Manufacturing Solutions

Providing technology, flexibility, velocity & experience for your new product

One stop solution for industrialization of new products

- Product Design (Electrical & Mechanical) with an Eco-system of Partners (ID | Reliability | Test)
- Quick-Turn PCBA Prototype
- NPI, Regional Production & Global Manufacturing

Providing Solutions Beyond a typical NPI Relationship

- On-site Engineering & Manufacturing Services
- Fast Materials Acquisition – Local & Global Materials Management Teams
- Integrated & Coordinated Technology & Components Solutions

### Advanced Engineering Services

Our Technical Services Group (TSG) provides expertise in optimizing product manufacturability and quality performance. We focus on every aspect of design and manufacturing processes – assessing all impacts on cost, function, program schedule and overall requirements.

manufacturing partner  
to innovators

SMTC offers fully integrated contract manufacturing services with a distinctive approach to global original equipment manufacturers (OEMs) and emerging technology companies primarily within industrial & commercial, computing & networking, communication & instrumentation, consumer & high-tech electronics, medical & life science and power & energy market segments.

SMTC Corporation is a publicly traded company: SMTX – NASDAQ.
